Introduction

I've always been passionate about computer science, graphic design and visual communication.
I started as a graphic designer with Adobe products, but when I discovered Adobe Flash I begin to write code with ActionScript 3.0. Now I'm a Frontend Developer.
I like to write good code, focusing attention on User Experience Interface.
I'm curious and enthusiast to learn, I work well in a team, adopt the Agile's Methodology, give my contribution sharing my skills and asking feedback for continuing personal improvement.

I'm attracted to Über Research to the possibility of working remotely, the opportunity to increase my technical skills and my salary.
So I think Über Research fits like a glove with my necessity and my background.

Skills

JavaScript, ES5, jQuery
HTML 5
CSS & CSS preprocessors

Work History

YOOX Net-A-Porter Group

From June 2010 to now

Senior Frontend Developer for Online Stores and In-season Multibrand

I work in the frontend development team using:

.NET, MVC, jQuery, ES6, Sass, Git, Wordpress, Coremedia.

Release e maintenence:

Valentino, Red Valentino, Bottega Veneta, Dunhill, Kartell, yoox.com, Armani, Marni, Dsquared2, Costumenational.

Special projects referent:

Special projects are little site who concern the annuals events of the fashion world, like the fashion's week of Milan.
The main feature of these mini sites is that they are purely emotional.
To realize them I was free to use the latest technology on the web.
I followed all the step of the special projects making process, form the concept to the release.

Software application:

Using **React** for a tool to support commercial team to organize product ranking.
Using **React/Redux** for a webapp to view real-time orders of all company e-commerce.
Using **Adobe Flex/ActionScript 3.0** for a a tool to handler the hotspots of the products in the video streaming of the fashion shows.

iOS developer:

maintenance and bugfix of some app iOS for the company's sites written in Objective-C.

Internal training:

I also contribute to internal company training as a speaker.
